We support university and college leaders, employers, policymakers, and young people to turn evidence into practical solutions and maximize resources. By working together, we improve education policies and delivery.

Our goal is to increase access to university or college, improve the quality of education, and enable young people to transition into work. This will support more than 1.4 million current students at over 500 universities and colleges in Ghana, Kenya, Uganda, and Zambia to achieve their ambitions, and create more opportunities for the millions that will follow.
